## PROFILE

Motivated **Software Developer** with experience in building responsive, easy-to-use web applications. Skilled in writing clean code, designing user-friendly interfaces, and improving performance. Always eager to learn new technologies and contribute to impactful projects.

## EDUCATION

### Bachelor of Computer Science and Artificial Intelligence

*Future University in Egypt*

2025

New Cairo, Egypt

### Bachelor of Computer Science and Artificial Intelligence

*University of Cincinnati*

2025

Canada

## PROFESSIONAL EXPERIENCE

### ITech Pro-Front-end Web Development Intern

07/2025

- Learned and applied **React.js**, **Next.js**, and **Tailwind CSS** to build responsive, dynamic web applications.
- Developed components, managed routing, integrated APIs, and gained hands-on experience with **JavaScript ES6+** and **Git/GitHub**.

Giza

### Elevvo Pathways-Frontend Web Development Intern

07/2025 – 08/2025

- Developed responsive web applications using **React.js**, **Next.js**, **TypeScript**, and **Tailwind CSS**.
- Built reusable components, implemented form validation, and integrated APIs to enhance user experience.

Remote

### Giza Systems-Digital Transformation Intern

08/2023 – 09/2023

- Developed interactive dashboards and reports using **Power BI**, enhancing data visualization and business insights.
- Automated repetitive business processes and tasks through **UiPath**, improving workflow efficiency.
- Executed data querying, manipulation, and management using **SQL**, ensuring accurate data handling.

New Cairo

## PROJECTS

### Mobile Repair Service App with AI Chatbot

*Graduation project*

- Collaborated in a team to build a **Flutter mobile application** with **Firebase** for real-time database integration, instant synchronization, and an admin dashboard to manage users, service requests, and operations.
- Developed a **multilingual, AI-powered chatbot** for user support, and integrated **embedded video tutorials** to provide step-by-step repair and maintenance guidance.

### CV Generator Web App

- Developed a **dynamic CV generator web app** using React with modular form components, an expandable sidebar, and **Tailwind CSS** for responsive, clean UI/UX.
- Implemented **PDF export functionality** with jsPDF, enabling users to download their generated CVs easily.

### Online StoreFlow

- Developed Online **StoreFlow**, a React-based web application for managing products and users, including **CRUD operations**, **pagination**, and **category-based filtering**.
- Implemented a clean architecture with separate **API**, **logic**, and **UI layers**, using **React Router DOM** for navigation and **Tailwind CSS** for responsive design.

### Weather App

- Built a **React-based weather application** that integrates the **OpenWeatherMap API** to fetch real-time weather data by location (temperature, humidity, and conditions).
- Designed a **responsive UI** with clean layouts for seamless use across devices.

### Pizza Restaurant Management Web Application

- Developed a **pizza restaurant management system** using **ASP.NET** and C++, with secure session handling and real-time inventory updates.
- Designed responsive UIs for customers/admins and implemented features for ordering, menu management, and data analysis
